Halloween Special – The Monster's Haunted House  
(this is the transcript of the podcast).

### **THE MONSTERS HAUNTED HOUSE**

The house was creepy and dark, there wasn't any light. When I was walking through the house I saw a scary tunnel. I went into the tunnel. It was very cold and full of cobwebs. I felt petrified. I saw a wicked vampire. He had huge jaws, long fingernails and sharp teeth. It was terrifying! I tried to escape, but the door was closed!

So I ran and hid under the stairs, but the vampire found me. He trapped me at the mouldy dungeon. There was a ghost watching me. The dungeon was dark, full of rats, crawling skeletons, rusty crosses and it smelled like rust.

After a while trying to escape from the small and mouldy jail, I successfully got out of it. Then I heard a very loud sound, I got very scared and I shouted. So the terrifying ghost heard me and it started chasing me all over the dungeon. I got out of it and luckily I trapped the ghost there.

I went up the stairs full of cobwebs. I arrived at the hall of the house. I looked through a small window. I could see the creepy and red sky and the spectral moon seemed to be staring at me. I heard a howl and I screamed. I was so afraid that I couldn't move my arms and legs.

Suddenly, a noise caught my attention. The vampire was in front of me! I had to do something. I saw a rusty, old lamp hanging of the ceiling. I had an idea. I took off my shoe and I threw it at the lamp. It fell and the floor started to burn. Then, I began to run to the door...

But the floor fell away and I fell with it. There the vampire was waiting for me and it bit my neck, so I became a vampire too.

Every 31<sup>st</sup> of October I go hunting children. So take care and don't leave home! I will be waiting for you!!!
