

Hi, we are maria and coronada and we are the students of 2A and we are going to tell you about Thanksgiving day and the difference between Christmas in Spain and in the UK. These days we make two groups in which the classmates look information about this items. We work with our computers and prepare information to learn a little more about these festivals in different countries. At the end of the program we have also prepared an audio of all the classmates talking about why they feel grateful, to simulate the tradition of thanksgiving. We hope you like it.
